## 1986 POLARION VOLUME XXVII

*This day I breathed first: **TIME** is come  
round,  
And where I did begin, there shall I end;  
My life is run his compass.*

*Shakespeare*

*Any time*

... the lillies of ambition still spring  
in their climate, still unpicked:  
but **TIME, TIME** is all I lacked  
to find them . . . .

Douglas

# *Play times*

AH, *STIRRING* **TIMES** WE LIVE IN - *STIRRING* **TIMES**.  
HARDY

**TIME** present and **TIME** past and both  
perhaps present in **TIME** future . . . .  
T.S. Eliot

# Growing time

But **TIME**, to make me grieve,  
Part steals, lets part abide;  
And shakes this fragile frame at eve  
With throbbings of noontide.

Hardy

Coming Soon

**AUDITIONS**

# Doing time

*O, Gentlemen!  
The **TIME** of life is short;  
To spend that shortness basely  
were too long.*  
*Shakespeare*

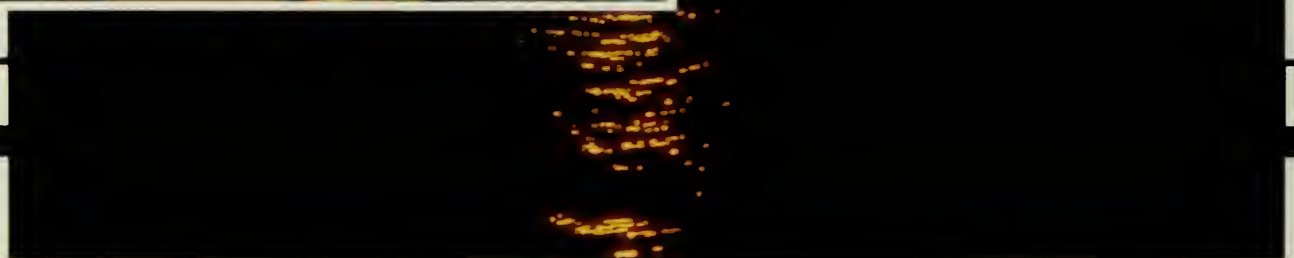

# Hang time

*Many **TIMES** I've been alone and many **TIMES** I've cried,  
Anyway, you'll never know the many ways I've tried  
But still they lead me back to the long and winding road.  
You left me standing here, a long, long **TIME** ago,  
Don't leave me waiting here,  
Lead me to your door.*

*McCartney*

Love, all alike,  
no season knows,  
nor clime,  
Nor hours, days, months,  
which are the rags of  
**TIME.**

Donne

# Double time

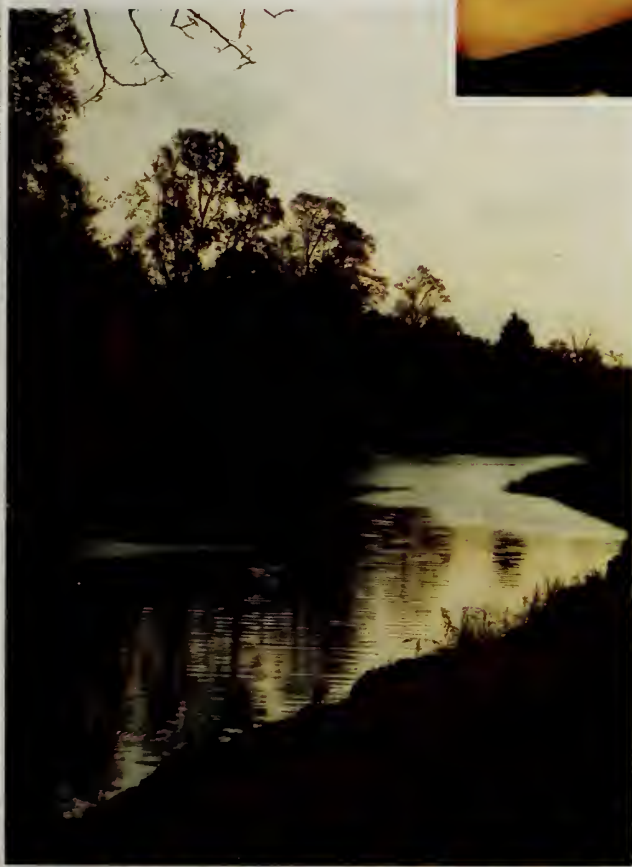

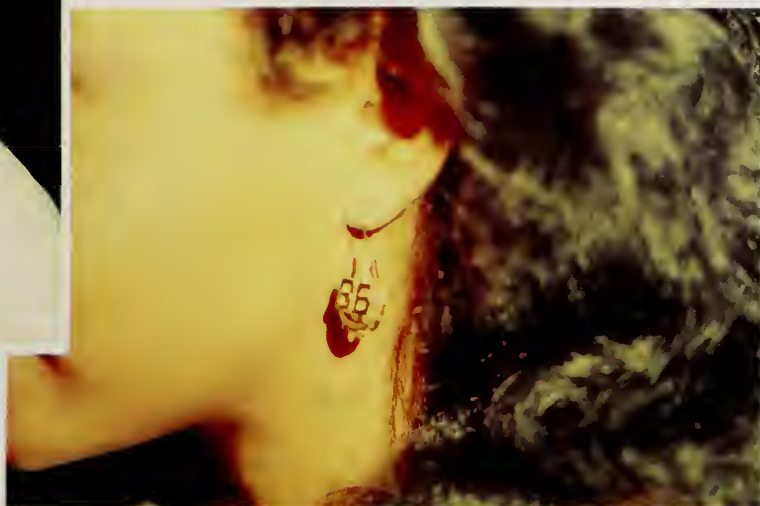

A very merry, dancing,  
laughing and unthinking **time**

....

Dryden

# Crazy time

*"Know the true value of **TIME**: snatch, seize, and enjoy every moment of it."*

*Chesterfield*

"Oh, let not **TIME** deceive  
you,  
you cannot conquer  
**TIME**"

W.H.Auden

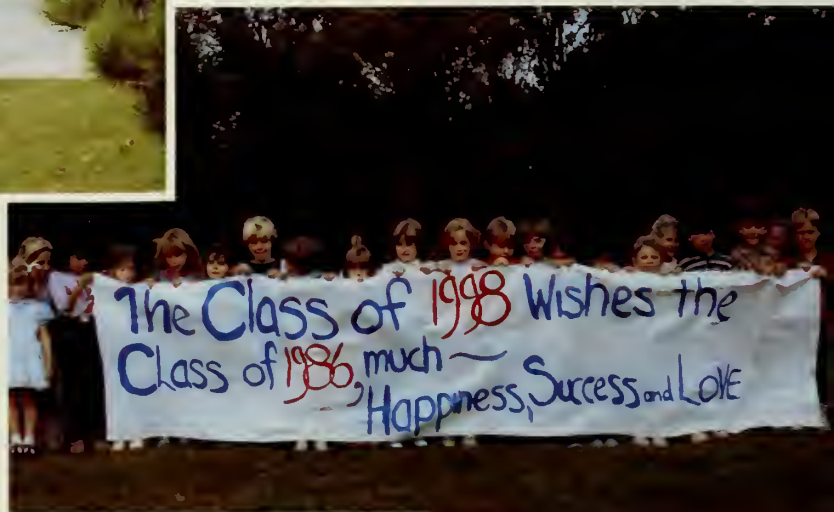

# A NCIENT TIME

"The **TIME** has come," the Walrus said,  
"To talk of many things:  
of shoes - and ships - and sealing-wax -  
of cabbages - and - kings -  
and why the sea is boiling hot -  
and whether pigs have wings."

#### ACTRESS

Lisa is now pursuing an ambitious career as a budding actress. Not only has she done numerous Sealy Posturepedic Mattress commercials, but she has also played the mystery lady on ZVW's evening hit, "Murder, He Gloats." Her sophisticated seductiveness has put her face on the covers of such prestigious publications as International Images, Glimpes of Glamour, Undercover, AND Les Deux Chiens Dans La Rue and has compelled producers and agents known worldwide to beg for her talents. In the future, she will star in Silver, an accredited documentary showing the gross reality of modern man's obsession with metal architecture.

#### TRAVEL AGENT

Lori, after restless years of wandering from job to job, finally settled down into the profession that seemed made for her, a travel agent for the moon shuttle. Her bubbly personality has convinced thousands to roam the dunes of the moon, swim in its crater-like pools, and to sleep and dine in the luxurious Endor Inn Motel chain. If you are interested in visiting our neighbor, the moon, just contact Lori and she'll be happy to send you on your way!

#### MALE NURSE

After his football years tormenting victimized opponents, Shawn attended a prestigious college of nursing, finishing 1201 out of 1202. He is now employed at the U-Break-'em-I-fix-'em up Hospital. His ambition is to one day successfully break and set every bone of his body using no anesthesia. On his few days off he likes to pick flowers and give blood for needy lab mice.

#### MECHANIC

Marie suddenly fell in love with a grease monkey after high school. She and her boy-friend went to New England Tech, where they learned the ins and outs of fixing cars. She now has her own garage on 5th Ave. N.Y., N.Y. and can be found changing oil for her former classmates for ½ price. Her only set-back was trendy New Yorkers who couldn't understand her Fall River accent.

#### HIGH TECH DESIGNER

Nancy is riding high on fame. Her new product- "Earring Radio" is selling in technically developed countries everywhere. As one English Punk rocker said, "They come in all these funky colors like, they are way out there, and they fit right in my ear!!!!!!" However, Nancy questions the longevity of her successful creation. Already doctors are cautioning users to avoid this harsh invasion to the ear, and already schools are complaining that they can't tell when a student is innocently wearing jewelry.

#### NUCLEAR SCIENTIST

Chrissy graduated from MIT with honors and went on to become the head scientist at Three Mile Island. She has led the nuclear power plant to the greatest efficiency ever achieved. She has won many honors and awards and is in great demand around the world to speak at prominent colleges. She presently resides in Middletown, Pennsylvania, is married, and has seven little Chrissies.

#### CASTLE CONSTRUCTOR

After several years of day dreaming in class Allen decided to put his brain to use and attended Harvard, graduating first in his class. He set up a successful business and has made sizeable profits from it. Those interested in seeing Allen again just have to let their fingers do the walking in the yellow pages, under Building Castles in the Clouds. He can make your royal dreams come true.

#### HOUSEWIFE

The day after graduating from high school Margie was married and soon after found herself with five no-neck-monsters. She quickly mastered the technique of collecting coupons and washing truck loads of dirty laundry. She can now be found at the local Shaws supermarket, counting her food stamps and chasing her monsters with rusted-out shopping carts.

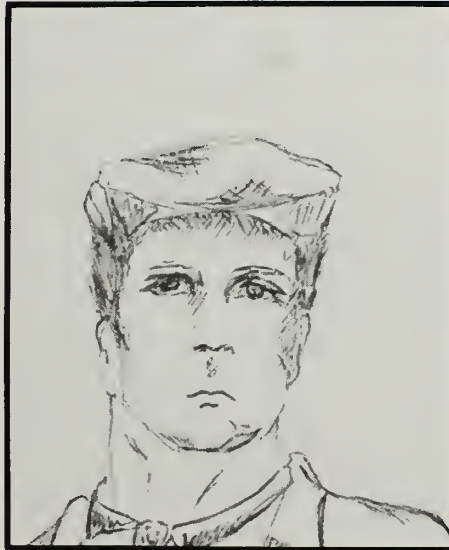

#### CRUSADER

After graduating from the top of his class, Eric became one of the most famous rebels without a cause. He is world renowned for his crusade against the harvest of seaweed because he found that the periwinkles perished without its protection. As a protest, he spent two weeks on an ocean shore protecting the poor little things. Among his lesser known accomplishments is his involvement with N.E.R.D.S. (National Enviornmental Rehabilitation of Dirty Socks).

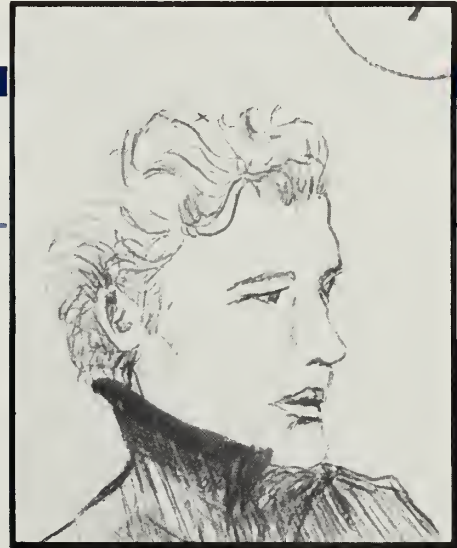

#### SCHOOL ADMINISTRATOR

With her rebellious years of high school behind her, Sharon took the straight road that led her to become Apponequet's future school administrator. There is complete discipline and order with her new and successful programs. Teachers are no longer harried and rooms are always in perfect order. Thanks to Sharon the school isn't what it used to be.

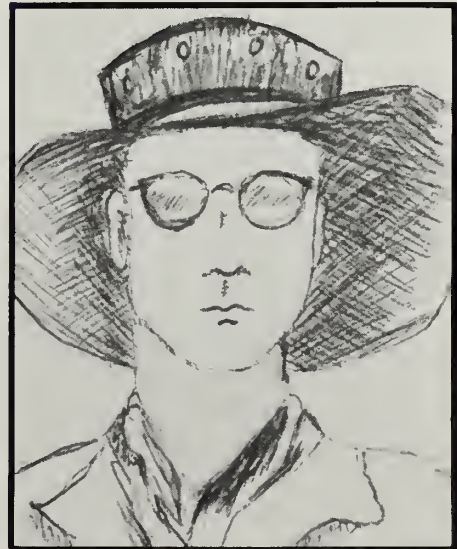

#### MALE STRIPPER

Mike has put his years of heavy work-outs in the gym to good use. With the help of Rudolph Nureyev, he has become the top Chip-n-Dale Dancer. He has selected the Hard Hat Routine, for he feels muscular men turn women on. He is famous for his suggestive routines. Since he is so fantastic, he earns about \$1,000 a night.

#### MALE MODEL

Don graduated from Apponequet High to continue his education in the Army. He later realized that the Army was not his cup of tea. One day, in a department store, he witnessed a fashion show and decided that he would try his hand at modeling. To his suprise he became an outstanding success. Women all over the world were screaming "Don!", Don!, Don!". But, having one woman after another became boring and he returned to Mum.

#### CIA AGENT

While maintaing the preppy image here at Apponequet, Paul has gone undercover in search of Russian spies. He specializes in cartoon theft and fraud since humor is not permitted in the U.S.S.R.. It must be stolen from America, translated and reprinted in underground newspapers.

*White in the moon the long road lies,  
The moon stands blank above;  
White in the moon the long road lies  
That leads me from my love.*

*Still hangs the hedge without a gust,  
Still, still the shadows stay:  
My feet upon the moonlit dust  
Pursue the ceaseless way.*

*The world is round, so travelers tell,  
And straight through reach the track,  
Trudge on trudge on, 'Twill all be well,  
The way will guide one back.*

*But ere the circle homeward hies  
Far, far must remove:  
White in the moon the long road lies  
That leads me from my love.*

FACULTY

#### HARRIETT PARKER

Harriett Parker began her teaching career in the one room country school teaching all grades, 1-8. She was the arithmetic teacher, the reading teacher, the gym instructor, the music teacher, the disciplinarian and the wood stove stoker.

Harriett Parker was part of the transition in education. She moved on to the graded, self-contained classrooms of Freetown Elementary School. Here, change was prevalent. As the town's population grew, more space was needed. Freetown Elementary grew two-fold, three-fold. Harriett Parker was part of this transition, this change.

Two towns united to form a regional school district. It was necessary if either town was to have a high school. Harriett Parker was a part of this change, this transition in education. Moving on to the High School, Harriett Parker became its first librarian.

Through her twenty six years as High School librarian, Harriett Parker saw many changes. She was a part of it all, from the junior-senior high school with its double sessions to the formation of a middle school complex, from the turbulence of the late sixties and early seventies to the fiscal restraints of the late seventies and the early eighties.

We stand today with another set of problems, albeit not new: the problems of rapid growth, overcrowding, and the need for expanded facilities and services. Although now retired, Harriett Parker continues to play a role toward the solution of these problems. Her service to education has not ended with retirement. Retirement is but a change, a transition.

The sociologist Max Weber wrote that Freedom is the ability of one to stop in one's tracks, to be able to assess a situation, and to change. If one holds to this belief, then Harriett Parker's career is the epitome of Freedom in Education.

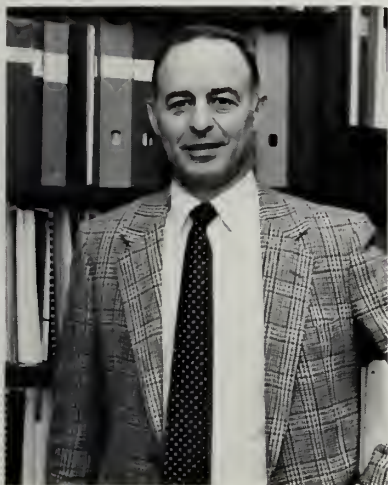

We salute you, Harriett Parker, the basket-toting, liberal Conservative, the antithesis of the stereotyped librarian, the lady who corrected our grammar as we spoke, the friend who made us angry and made us laugh and the country school teacher dedicated to progress.

*The National Honor Society is a group of students who have been selected to participate because of their outstanding academic achievement. But the organization is more than that. It is comprised of individuals who have demonstrated high levels of leadership, service, character and scholarship, both here at Apponequet and in the community. Its members participate in fund raising activities to award scholarships and sponsor a collection drive for Oxfam America.*

# Yearbook Staff

*Deadlines, typing, lost pictures, late nights in room 101 are just a small list of what it takes to put together the Polarion each year. Is it fun? Does the staff enjoy making the dramatic choice between a period or a comma or should the picture be one and one half or two inches? The Polarion tries to reflect what student life at A.H.S. is all about. Each year some people love us and some people don't but the job falls on the shoulders of the Polarion staff. We hope this year's edition gives you some pleasure and will be a source of information and enjoyment in the years ahead.*

# STIMULUS

*Stimulus is an organization of high school students and teachers that is devoted to providing cultural enrichment programs of all types for our school and community. Our goal is to stimulate the POSITIVE ENERGIES in ourselves and others, thereby "rising above" the negative circumstances that are contrary to the human imagination. Our goal is to create NETWORK SYSTEMS that will stimulate the flow of creative energy.*

*We hope to "link up" with other organizations and people who share our philosophy of "rise above it." We hope to sound a chord in the minds and hearts of our "friends in spirit" who feel that it is time for action—that is time to take responsibility for the quality of life, not only in our schools, but in our communities and our world.*

# Cheerleaders

*A cheerleader is not just a bubble brain who can only repeat a few cheers on a Saturday afternoon. Cheering takes work, physical agility, and dedication, with a little goofing off thrown in for good measure. Apponequet cheerleaders work to improve school spirit and provide visible support for the varsity teams. Cheering encourages good citizenship and caring from its members and they give willingly of their time and energy.*

# DRAMA

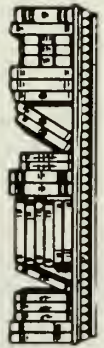

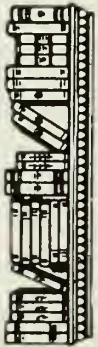

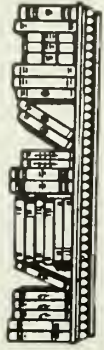

*Be daring, be different, be impractical; be anything that will assert integrity of purpose and imaginative vision against the play-it-safers, the creatures of the commonplace, the slaves of the ordinary. Routines have their purposes, but the merely routine is the hidden enemy of high art.*

## LEAVING

Some of us were leaving  
little towns and pretty places  
(though we thought them  
ugly at the time).

Some of us were driven off  
some of us went driving off  
and there were those  
who couldn't do  
or wouldn't do  
what those who stayed behind  
were left to do.

Some of us chased shadows  
dreams  
ambitions

and as we went  
we waved goodbye

forever.

Some there were  
who lived in  
whistle stops  
now  
deserted

That is not to say  
that we were special  
set apart from those  
who stayed.  
We were movers  
but of our own selves only

Not unlike the cabbage  
grown for city market  
there came a time to be  
detached  
and trucked away.  
And we went willingly.

Some of us  
went away  
just to get away  
some of us left  
because horizons never stop

Beyond each hill  
a new one waits  
and pulls us  
like the hidden hands  
of love.

Some of us thought  
we'd walk a little taller  
if we walked away.

but for the weekly train.  
Some had never seen a train  
and thumbed their way  
along dirt roads  
or slick new WPA highways.

But whether we rode off  
in coaches or cattle cars  
or crouched beneath cabooses  
shifting railroad ties  
that engines up ahead  
had only just now eaten,  
we were leaving.

Most of us without exception  
had no pre-determined  
destination

There were jobs in Tonopah  
logging to be done outside  
Seattle  
and heading East  
you always come back rich.

Most of all  
there was some living  
to be done.

Even I knew that,  
ever since they built the road.

Mama shrugged  
and let me go  
with some misgiving,  
and I suspect  
a little pride.

~R. McKuen~
